A fantastic looking young brindle heifer out of Sniped. Once Upon A Time has the color, she has the horn and the genetics to be a really special cow, all she needs is a little time. the only negative to this heifer is that as a young calf she had her switch stepped on and pulled most of it off. It is slowly starting to grow back but will most likely never be quite what it should have been. don,t let that deter you from one heck of a heifer.
